The 2000 Ford Expedition has 1245 problems & defects reported by Expedition owners. The worst complaints are engine, electrical, and suspension problems.

2000 Ford Expedition Problems, Defects & Complaints

A flashing check engine light is your Ford Expedition 's way of saying "I have a serious problem, don't ignore me". Most of the time, that serious problem is a misfire. This flashing light should not be ignored. When your engine is misfiring, it is dumping raw fuel into the exhaust.

Ford Expedition : Flashing Check Engine Light Diagnosis ...

All Ford Expeditions use the same computer program and code set to record and diagnose engine malfunctions. This code set is known as OBD-II, or On-Board Diagnostics, Series 2. As the name suggests, the program continually monitors the engine through dozens of sensors to warn the driver if any of them exceed the factory parameters.

How to Reset a Ford Expedition's Check Engine Soon Light ...

A flashing check-engine light indicates a severe misfire, which can quickly damage the engine and/or the catalytic converters (due to unturned fuel). Don't drive it with the light flashing. Have the vehicle scanned for any stored trouble codes - which will point you in the right direction.

2000 Ford Expedition Engine Problems | CarComplaints.com

Correct but RP adds another additive in there that has shown some concern for overall life expectancy of an engine. I personally don't know anyone running it and having an engine lasting over 150K miles. For what it's worth I use Mobil 1 in our Ford GT and have zero issues with it and the only time it get's drive it's hammered on.
