C-90-12F or C-90-14F of 90 hp (67 kW) was optional, as was the 108 hp (81 kW) Lycoming O-235-C1 engine, an aftermarket installation authorized in the type certificate. This model had a metal fuselage and fabric wings with ...

Cessna 140 - Wikipedia

Likewise the Cessna 170 is the tail-dragging predecessor to the Cessna 172 Skylane. First-generation Cessna 172s were in fact little more than 170Bs with the third wheel on the wrong end and a squared-off tail. Essentially a 140 stretched for a second row of seats, the first 170s retained the "rag" wing but the 170A introduced an all-metal wing.

140 For Sale - Cessna Aircrafts - Aero Trader

With its iconic yellow Cub, Piper owned the market during the 1940s, but that was all to change when Cessna created the 120 and later the 140, which stayed in the model line until the early 1950s. Although only hardcore Cessna aficionados know it, the Cessna 172 actually predates the Cessna 150, which first appeared in 1959.

Cessna / C-152 Sparrowhawk - Barnstormers

Cessna merely shifted gears when folks stopped buying the 140 and put a nose gear on it and called it the 150. And we all know how that went. That all said, the 140 was far from a failure. Cessna built nearly 8,000 120, 140 and 140A planes over the type's five-year run from 1946 to 1951.
