Americans perceive some religious groups as more under threat than others, according to a recently released UChicago Divinity School/AP-NORC Poll. A majority (52%) think Muslims' freedom of religion is threatened, and 42% say the same about Jews. A quarter or fewer say other groups face challenges to their religious freedom.

Home - AP-NORC

For more than five decades probability sampling was the standard method for polls. But in recent years, as fewer people respond to polls and the costs of polls have gone up, researchers have turned to non-probability based sampling methods. For example, they may collect data on-line from volunteers who have joined an Internet panel.

Sampling Methods for Political Polling - AAPOR

With no other information gathered about the 30,000 respondents to help make the projection (as happens in American exit polls, for instance), the accuracy of the exit poll rests upon surveying the...
