The Nature of Life: Readings in Biology [Paperback]

We were never born to read. Human beings invented reading only a few thousand years ago. And with this invention, we rearranged the very organization of our brain, which in turn expanded the ways we were able to think, which altered the intellectual evolution of our species. (Wolf, 2007: 3) Reading is something many of us take for granted.

The nature of reading: Defining reading (Chapter 1 ...

Abstract This paper gives a short analysis of the nature of reading. Though it is generally believed that reading involves perceiving the written form of language, the term reading has not been clearly defined up to date. It is possible to see reading as a process, or to examine the product of that process.
