Urban Development: The Logic of Making Plans Urban Land ...

Urban design is the process of designing and shaping the physical features of cities, towns, and villages and planning for the provision of municipal services to residents and visitors. Although it deals with issues of a larger scale than architecture, it cannot be understood as a wholly separated field of research and design, since the quality of one depends on the quality of the other.

1 Plans for Urban Development: Why and How? Making most development decisions one by one—with the focus on process, without benefit of something called a plan—is to forget why the field exists. —Allan B. Jacobs (2000), "Notes on Planning Practice and Education" To the northwest of Champaign, Illinois, Interstate 74 leads to the small town of Mahomet ten miles away.
